Sketch.inc for Lucie Kaas

Lucie Kaas and designer Becky Kemp from Sketch.inc have developed new accessories.

Since the popular Sketch.inc for Lucie Kaas collection was introduced in 2015, new and characteristic kokeshi dolls have been added to the collection each season. Now, the collection is focusing on new directions by introducing accessories like keychains and laptop sleeves. In the true spirit of the collection, the accessories have been designed to add a humorous edge to the everyday mundane.
The key chains and laptop sleeves are in stores from October 2018.
