RUBY & EMERALD STACKING VESSELS

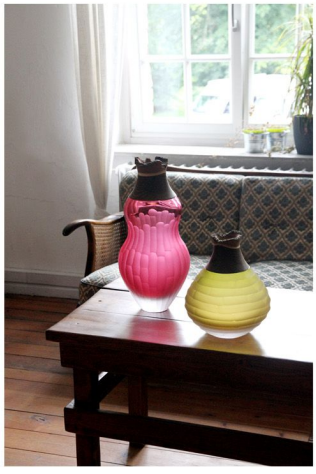
A new collection of vessels looking like Jewels.
The Gems, Ruby & Emerald are characterised by the vivid colours of their glass vases and the unique runs on their Raku bowls.
.

PARADISE STACKING VESSELS

Following the response the Paradise Stacking Vessels and their delightful ceramic glazes received during their introduction at M&O in Sept. 2019, Eve & Lilith are now being launched in new milky glass colours, combined with Rose & Turquoise ceramics.

KALA VASE

Kala is a fish-shaped piece, consisting of a sculpted glass vase curled into a wooden bowl.
The use of bright glass colours and the diamond-wheel fine cut scales turn each ones of these pieces into a true ornament.



OYA STACKING VESSEL

Preorder now the new desirable curvaceous Oya Stacking Vessel. A name full of symbolism for this new piece, with its cut glass surface, both rough and refined, and its smoked Acacia wood.
Named after the Yoruba goddess who represents creative power and action, Oya will be available in limited quantities and via preorders only.
