Interiors complemented with our products, will give them a luxury and refined look,
to give it that extra touch to satisfy the end-consumer."

Eric Verheijen, Creative Director, WR-INSPIRED
With his 30-years of expertise in the furniture branch,
his goal was to create a brand with a contemporary and sophisticated look and feel.
The result is a collection of high-quality, design furniture with a unique character.
The brand is being managed and developed by Sofa-dome BVBA , a company based in Belgium.
We have the advantage of running our own production units, which gives us a maximum of possibilities.

Our operation is located in the city of Cluj-Napoca, the city is known for it's engineering university.
Which made it possible to rely on people who understand the required standards,
and expertise necessary in the furniture industry.

We have built a great team with a passion for furniture design,
and over the years we have grown and have perfected our production process.
These build experiences allow us to deliver a great service from start to finish.
