WR-Inspired at Maison & Objet, Paris
– A Confluence of Belgian Sophistication and Modern Design

We are delighted to announce that WR-Inspired will be showcasing at the prestigious Maison & Objet fair in Paris, an event renowned for celebrating innovation and excellence in furniture design. WR-Inspired represents the pinnacle of Belgian sophistication, where contemporary design and European craftsmanship converge to redefine the furniture landscape.

Founded by visionary Eric Verheijen, WR-Inspired has over three decades of expertise in the furniture industry. Our brand embodies modern sophistication and luxury, with a unique emphasis on high-quality, European-made products. At the heart of our operations are our state-of-the-art production facilities across Europe, ensuring every piece resonates with our commitment to craftsmanship and exclusive design.

Our collections are a symphony of luxury and functionality. We utilize metal as a common thread, gracefully complementing natural materials like marble, glass, and wood. From coffee tables to dining room sets, and from decorative mirrors to interior vases, our range harmoniously blends practicality with aesthetic appeal. This approach has earned us a distinguished place in the realms of wholesale, retail, hospitality, and bespoke interior projects.

At WR-Inspired, we are more than just a furniture brand; we are a partner to architects and hospitality professionals, offering a wide range of customizable solutions for various interior spaces. Our collaborations with retailers and multi-brand stores aim to create profitable partnerships, providing collections with a distinct identity that captivates and inspires.

As we prepare to exhibit at Maison & Objet, we invite you to explore our world of luxurious design and discover how WR-Inspired is revolutionizing interior spaces. Join us in Paris from 18 to 22 of january, and immerse yourself in the essence of contemporary chic and luxury design, proudly presented by Sofa-Dome Corporation.
