GALERIE GLUSTIN
MIAMI
OPENING OCTOBER 2026

Karine and Virginie carry on the family legacy initiated by their parents by showcasing contemporary artists and iconic 20th-century pieces at Galerie Glustin.

They will soon inaugurate a new 350 square meters space in Miami, designed to offer a wide range of creations while bringing them closer to their American clientele.

Committed to maintaining a privileged relationship with their visitors, the two sisters personally welcome architects, decorators, and collectors by appointment, ensuring a fully bespoke experience.

The Gallery caters to an audience with a deep appreciation for artistic creation and a desire to acquire unique works by renowned artists. Driven by a profound passion for creation, Karine and Virginie regularly collaborate with artists and artisans to design exclusive pieces produced as one-of-a-kind works or in limited editions. They also offer custom-made creations.

Constantly seeking exceptional 20th-century pieces, they currently present a sofa by Zaha Hadid, a steel bookshelf by Vitorio Introini (1970), a pair of armchairs by Gianfranco Frattini (1960), an Aubusson tapestry by Jean Picart Le Doux (1902–1982), a sculpture by Milosevic (1939–2014), along with a selection of unique works.

The website has been designed to make browsing and selecting artworks and creations easier. However, as many visitors point out, nothing compares to the experience of visiting the gallery in person, where the atmosphere is truly singular.

A bespoke transport service is available, ensuring the secure shipment of artworks worldwide through the finest specialists.
