

Coming Home by Chic Antique

Memories are the central theme in Chic Antique's brand new and gorgeous collection Coming Home. This Autumn will be great and nostalgic with lots of flashbacks to bygone times. The new collection will take you on a journey back in time to where it all started, and we have resurrected and renewed some of the first Chic Antique classics. These lovely items are even more Chic Antique than ever.

The core of the Chic Antique style is beautiful vintage products that deserve a new future and to be valued again. The soul of each item gets new vitality in the coming collection and this is how we create our special authentic atmosphere. We breathe new life into the romantic style and blend it with the industrial Nordic look giving you the ability to decorate in your own creative way.

The collection is characterized by a lot of brand new colours, that will enlighten the coming Autumn; wonderful blue, green and rose pastels, both in furniture, textiles and flowerpots and a theme throughout the new arrivals.

You will see the colours in the new textiles, where you'll find heaps of cushions, table cloths and scarfs. The cushions come in velour and the most stunning old fashioned olmerdug stripes. Additionally, we have a whole new series of clocks that may stand or hang - reminding us of time passing by.

We have enlarged the selection of furniture with many great new items for example a beautiful chest of drawers and a large table with wheels and shelves both in a warm wooden colour. You will also find a fantastic closet in a pastel green, a nostalgic rocking chair in white iron and a new dining chair in wood with braided back and seat.

For the garden there's a new series of rustic flowerpots in as many as eight different colours together with new concrete products such as pumpkins for a lovely decoration. In addition there are lots of new zinc items to use outdoors as well as indoors. For example a large flowerpot which will fit perfectly for an olive tree.

Our selection of candles has been extended with dinner candles in the same beautiful colours as our short dinner candles and our taper candles. So now you'll have the opportunity to order all three sizes of candles in matching colours.

We invite you to explore the new wonderful Autumn/Winter 2017 collection from Chic Antique and dream of days gone by. It feels like Coming Home ...
