

L'actualité d'Ombres et Facettes à Chambord

On the occasion of the improvement of the conditions of welcome and the restoration of the place, the castle of Chambord asked the company Ombres et Facettes to restore the chandeliers of the domain.

Looking forward to the repairs the company lent them chandeliers so that rooms remain enlightened during the visit.

From now the chandeliers of the salon de compagnie and the ceremonial room took their seat back, they were cleaned, repaired and the crystal was changed.

Within the framework of a convention of sponsorship Ombres et Facettes installed two pairs of chandeliers of their collection in the room of the Illustres and in the room of the Bourbons. It is 2 models of a Gabrielle 18 arms light oxyded silver finish and 2 models of a Chaîne 18 arms light bronze finish.

The chandeliers which were in this room were removed, they will be repaired, restored and put in the electric standards then will replace in other rooms of the castle.
