

PRESS RELEASE – DUTCHDELUXES – AUGUST 2017

## **AMAZING LEATHER APRON & LEATHER OVENGLOVE**

In a time where handmade and authentic materials are in high demand, Dutchdeluxes leather aprons become the leading product of the brand and indispensable in a well-equipped kitchen.

Amazing apron is a collection of handmade leather aprons in the Netherlands. The aprons are available in 2 sizes, the classic model that has already proven it's perfect fit for women and men. And the new size; extra long, is initially especially designed for the tall people. Their experience learned that also the real fashionista likes to wear it extra long.

The classic design is made of 100% full grain leather – a natural product that ages gracefully. Regular use will create a patina, a soft sheen that develops on the surface of the leather. Making the product more beautiful by using. It is finished with a transparent dirt-repellent coating making it easier to rinse and clean.

Available in 4 different styles: classics, colours, perfo's and croco's. Made with a smooth, perforated or croco-style printed surface. They come in many fashionable colours.

To complete the look, the collection is enriched with leather gloves. Made of 100% full grain leather with a heat resistant lining, gloves are available with the same surface and in the same colours as the classic leather apron.

The combination of the apron and the gloves will make you look fashionable in your kitchen but will be functional at the same time. The gloves can be used from 180 °C - 240 °C [350 °F - 460 °F].

Both the aprons and the gloves are sent in beautiful gift boxes.
