8 September 2017

DWC LAUNCHES THE NEW CARIBOU WALL TEXTILE COLLECTION AT MAISON ET OBJET 2017

At Maison et Objet, Dutch Walltextile Company (DWC) proudly presents the new Caribou wall textile Collection.

The Caribou wall textile collection is a rich Italian jacquard velvet which catches the light from different angles and will be available in 4 luxurious colours. Caribou is inspired by nature's true beauty and will bring the ever-changing surroundings of nature to your walls to give an interior a luxurious and warm experience.

Dutch Walltextile Company (DWC)

Dutch Walltextile Company is an international brand and renowned specialist in exclusive wall textiles for high-end interiors. The Amsterdam-based company focuses on quality, functionality and durability, combined with a passion for refined materials, colours and textures.

DWC products are available at exclusive interiors shops, wallpaper and paint retailers.

Production takes place in house, using state-of-the-art machinery which enables the company to produce unusually wide wall textiles (130cm). This unique width allows the use of fewer repeats to create a beautiful and luxurious impression.

The DWC Collections

DWC's main range of wall textiles consists of 11 themed collections in 9 colours. A limited selection is available in even more colours.

The wall textiles are sold by the metre and delivered in special 'transport safe' packaging.
