Nowadays, people have started to consider their modern-day bathroom a “retreat” and a place in which you can relax after a long day. Homeowners are taking notes on products and features that strike their fancy, making every detail a potential item for the bathroom wish list.

Designers are seeking even more new ways to add comfort and value to the bathroom and that’s why the **KOI Collection** will add a lot of personality to any bathroom. The **KOI Collection** was inspired in the KOI carp, which is a recurring symbol of Japanese culture, highly appreciated by its decorative purposes, not only in water gardens but also in Irezumi practice or, most commonly, in tattoos.

### The Bathtub

The KOI scales that compose the panels of the bathtub shine and reflect – on its brass surface – the sun caught throughout the clear water. KOI and the Japanese word for love or affection are homophones, making the carp also a symbol of love and friendship.

**The Stool**

The Koi scales that compose the panels of the washbasins shine and reflect – on its brass surface – the sun caught throughout the clear water. Koi and the Japanese word for love or affection are homophones, making the carp also a symbol of love and friend - ship.
