The Floral Collection

With the Floral Collection, we want to take you to a stroll into an enchanted tropical forest. Blossom, Azure and Nightfly are the new bottles we wrapped in blue-shaded fantasies of blooms and foliage to create a naturally fantastic atmosphere.

The Floral Collection features three different compositions of leaves and flowers to create a magical atmosphere and take you to a night in the Tropics.

The Floral Collection will be first launched at
Maison&Objet Paris, January 2018
