

HomeLife! HomeLove!
Eco luxe home fragrance!

To burn a HomeLife!HomeLove! Candle is to be introduce on a journey of the senses. Enhancing emotions, elevating moments, and evoking memories!

HomeLife! HomeLove! Candles are a natural product and are manufactured in Cyprus!

Our candles are the natural alternative to paraffin. they are Kosher certified 100% vegetable non-toxic soy wax which allow them to burn evenly all the way to the vey bottom, leaving almost no excess wax on the sides of the jar, giving you twice the candle, and cleaner air for you and your family!

They are handmade and hand poured, scented with premium grade fragrance oils especially designed for candles (IFRA certified), available in great variety.

We also use 100% natural cotton wicks for clean burning without metal threads or zinc.

Our candles are presented in luxurious glass containers which evenly distributes light around the room and diffuse the aroma from top to the bottom. Glass containers clean up easily, by using only soap and water.

Our candles are the ideal choice for green candles. All our materials are recyclable and eco-friendly.

CANDLE INSTRUCTIONS AND SAFETY RULES

- Initial burning of candle should be approximately 1 hour per 2.5cm of candle diameter
 - trim the wick to 0.5cm each time before burning. This will help prevent soot and extend the life of the candle. Also if wick develops a mushroom carbo tip, extinguish the candle.
 - if the candle burns one-sided, you may gently push over the burning wick to the centre. Do not bend a cooled down wick (it may break)
 - Never leave a candle burning unattended. Burn candles out of reach of children and pets.
 - Always put candles on a heat-resistant or non-flammable base.
 - Never burn a candle on or near anything that can catch fire.
 - do not burn candles in a draft
 - place burning candles at least 10cm apart from one another
 - keep the wax pool free of wick trimmings, matches and debris at all times.
 - Never move a burning candle. Allow the candle to cool and solidify before moving. The candle container and wax can become extremely hot when in use.
 - Never extinguish candles with water
 - Never use a candle as a night light
-
