

Laskasas
2018 Collection

Established in 2003 in a small city on the North of Portugal, Laskasas is a design brand specialized in the manufacture of furniture, upholstery and metallurgy. With a long experience on handmade products, Laskasas is now a recognized brand of excellence in Portugal that provides interior design solutions for every room of the house, turning every space into a home.

Each Laskasas piece is handmade in Portugal, inspired by the Mid-century Era with a modern twist. Solid wood, stainless steel and leather are some of the materials used but a key aspect to this brand is that every design can be customized to the wants and needs of each customer. From sideboards to armchairs, beds to dining tables, Laskasas has the interior design solution you are looking for.

To meet the demand of its loyal customers and market needs, Laskasas launches new designs every year. In January 2018 the brand is flying over to Maison et Objet Paris to introduce to the world its approach to mid-century modern design but always keeping in mind the functionality and practicality needed in a home.

This new collection features marble and wooden consoles, velvety beds and contemporary dining chairs. A sense of sobriety involved in nude and warm color pallets are a common element on this collection as well as the play of dimensions and textures of each piece.

Dining Room:

This dining room ambiance is characterized by walnut furniture with gold details and the pattern of the cabinets matches the rugs. A stylish dining room décor with all functionalities and practicalities you need.

Bedroom:

This upholstered bed is the perfect reference from which the rest of the décor can be based. The occasional brownish tones give this bedroom the warmth it needs, while the black and copper lamps, along with some gold and black decorations, add a luxurious touch to this space.

Living Room:

A deep blue upholstered sofa, with its backrest and back covered in tufts starts this ambiance off with a bang. A beautiful dark grey eucalyptus finish intertwines with the golden stainless-steel coffee table, side table and TV cabinet. The two grey upholstered armchairs add a touch of sobriety to the mix.
