

FLEUR DE KAOLIN

Fleur de Kaolin, a tribute to the world of porcelain.
A partnership with **HAVILAND**

LIMOGES FRANCE 1842

Seduced by the unique know-how of Maison Haviland, one of the last porcelain manufacturers in France to produce its porcelain in Limoges in its entirety, from the manufacture to the decoration of its services, Designheure is proud to integrate in its new design the elements of the Infini collection to sublimate them again in a jewelry fixture, 100% French.

Chandelier 18
80 x 320 cm
9 588€

The spirit of the collection, centered on the verticality of the graphic design of the porcelain elements, is inspired by the idea of the carillon or the rain stick.

Available in wall lamps, chandeliers and pendant lights, these jewelry lights backlight the sensual material of the porcelain biscuit and its vertical graphics.
