

MOZAIK

AN ARCHITECTURAL AND MODULAR COLLECTION

Mozaik is an architectural and modulable collection designed to structure the space: at the same time lamp and space separator according to the chosen version.

Designed by Davide Oppizzi, his inspiration comes from the concept of mosaics and its geometric shapes. It was also about creating a luminous surface, falling like a rain of meteorites, cutting the space and not just bringing a luminous point.

Available in three sizes (panel 1x5, 2x5 and 5x5), these light panels structure and dress the space. Custom sizes on demand.

Panel 5x5
10 188 € TTC

Panel 2x5
4 188 € TTC

Panel 1x5
2 100 € TTC

Compound of 3 light panels of 90 cm each, arranged in triangle, just like a prism, this outstanding contemporary chandelier provide a pleasant light, backlighting the internal color.

Chandelier Trio Flat
5 148 € TTC

Chandelier Trio
9 588 € TTC

Suspended in the air with a single ceiling mount, this light is designed to fit all environments from residential to commercial. The pending light connects to a simple plug and can play the role of a floor lamp or a bedside lamp saving the need to require power from the ceiling.

Nomadic
708 € TTC

Materials:
Fabric, brushed brass, lacquered steel, fiber glass, colored textile cord.
