

## PRESS RELEASE

Oiã, 15th january 2018

### OIA WILL EXHIBIT AT MAISON & OBJET 2018

The portuguese brand OIA – Furniture & Objects by Barmat will be present at the next edition of Maison et Objet in Paris, starting this 19<sup>th</sup> January, with his own stand and introducing new materials.

For the second time in the show, OIA, a brand launched by BARTMAT- Barros & Matias S.A. in the last year, is ready to present their news stones for the COSMOS series: the ERAMOSA and the GRAPHITE marbles.

OIA – Furniture & Objects was created with no details left to chance and the goal of offering the highest quality products. To be able to achieve it, OIA combines traditional stone craftsmanship techniques with a modern sophistication that transcends any singular design style.

Always searching for the best, OIA has challenged the André Teoman Studio to create a fabulous series of products. This collaboration resulted in the **Sputnik – dining table** and the **Kandinsky sidetables** series, which have been added to the collection already created by OIA Design Studio, where **COSMOS – side & coffee table** and the **ORBITER dining table** are included.

OIA – the current COSMOS' series
