*“Only something  
new and unique can  
attract the attention  
of the public.”*

— JOÃO MATIAS

**Describe the creative process behind this new pieces.**

The creative process is all based on the concept of the brand and its identity, our main focus went through escaping the cross-design that has been done in the past using other brand's style pieces but at the same time trying not to escape the Maison Valentina identity and its luxury authenticity.

**What materials were used in this collection?**

Besides the materials we have the shapes, the shape potentiates the raw material, in this case we use the famous and ostentatious marble, which is partly worked by hand, then we go to the encounter of Victorian forms with the timeless ornaments using on them several colors in this case we have used black with different shades of brightness.

**Which is the piece that for you stands out the most? Why?**

It would be the Petra Washbasin. Because it is a bold product that does not fall far from the brand's language and is possible to see our materials that identify the brand and that go along with our client's expectations.

**There is a lot of new pieces of the KOI Collection. Did you feel that the KOI Collection was incomplete? That's why you choose KOI instead of others?**

I think all collections are not yet complete, we are working on this, the brand is recent and we haven't had enough time to close each collection from start to finish. Our goal is that each product line has its own set of that will contemplate an entire bathroom environment, in this case we have started with the collection KOI.

**What questions have you asked yourself when designing this pieces? What information's where the most important?**

Understanding the position of the brand, and its target, and always keeping in mind that only something new and unique can attract the attention of the public.

**What pieces are you most proud of this collection? Why?**

It's a bit subjective. We must feel proud of all our collection, otherwise we could not and should not communicate them.

## **PETRA** *washbasin*

This bathtub combines Ibiza marble and wood and is inspired in the ancient city of Petra where buildings are directly carved to stone cliffs. The black gloss look of the wood matching the different shades of white turn this piece in one everlasting exclusive visual experience for the most luxurious bathrooms.

## **PETRA** *bathtub*

The melted marble look of this item takes us to the City of Petra where buildings are carved directly from the stone cliffs. By adding this washbasin to your bathroom it's a sure guaranty of a luxurious and exquisite environment creation.

## **TORTOISE** *washbasin*

For centuries, Tortoise hard outer shell has the inspiration for different pieces, highly appreciated by its decorative purposes. The reason is its beautiful patterns and colors, which make this product unique. Black, grey and golden colors shows a marvelous piece, contrasting with the golden tap and black legs. Use to create a better sense of space division in your ambiances.

## **KOI** *mirror*

The Koi Mirror shape resembles us a family crest where we can identify two carp scales. This format is inspired on a carp which is a major symbol in Japanese culture. The elegance of this mirror stands out with gold as its major color and adapts to any environment adding a luxury and contemporaneous touch.

## **KOI** *soap dish*
