

The Silk Road Collection

Inspiring contemporary interiors by the beauty of
imperfection & Asian timelessness.

At The Silk Road Collection we find inspiration in the visual contrast and simple beauty found in the juxtaposition of Asian antiques and contemporary design. Whether the style is classic or contemporary, we believe that Asian furniture and decorations can be integrated in any interior, and add a unique and harmonious feeling to a place.

The Silk Road Collection has grown from wholesaler in Asian antiques into a sourcing and production support agency for New Asian Style.

New Asian Style is a combination of stark contemporary design with Asian antiques or objects inspired by ancient Asian design principles. This juxtaposition creates a unique visual contrast between the spiritual qualities of Asian design and idealised Western aesthetics. The atmosphere of a New Asian Style interior inspires a calm, Zen-like feeling, and creates an ambience of luxury and worldliness.

New Asian Style goes beyond mere decorative objects and furniture. It defines an attitude to space, a spiritual quality. It refers to past traditions, enhances luxury through simplicity, personalises a peaceful sanctuary and, above all, is about valuing beauty to the smallest detail.

Whether you choose Asian antiques, Asian design furniture or traditional Asian interior decorations, you add a personal touch to any interior by bringing the history of the East in a contemporary setting. This is what makes New Asian Style unique!

All articles in our collection, new and antique, are personally sourced during our travels to Asia. Thanks to the established network of our local office in China, our carefully selected suppliers & delivery solutions, we are able to support our clients' projects from product search, to local production and worldwide delivery.

For the first time, we bring our philosophy and products to Maison&Objet. We are looking forward to inspire many more people with our style and exciting mix of unique interior decorations!
