**EDIMAX AND ASTOR SHOW THEIR TRENDS IN PARIS**

*From January 19 to 23, Edimax and Astor will take part at Maison&Objet Paris to show their ceramic innovations at the trade fair for interior design.*

From January 19 to 23, **Parc des Expositions in North Paris** will be a great showcase for the new edition of **Maison&Objet Paris**, the French fair dedicated to furnishing and home decoration.

**Edimax and Astor**, the Gruppo Beta brands located in Solignano (Modena – Italy), will be among the exponents of the Made in Italy ceramics quality and value, presenting their porcelain tiles solutions at the **Hall 5B - Stand A35-B36** to the architects, designers and visitors expected at the kermesse.

**Edimax** entrusts its innovation to **Kardoso**, the collection that reinterprets the original stone of the Apuan Alps and translates it into porcelain tiles. Thought in four colours, Kardoso combines a decisive realistic aesthetic and the best performance of gres porcelain tiles

**Belgica** and **Oaks** will be the Astor's new collections that interpret the natural aspects of natural stone and wood respectively, with style and personality.

The **Belgica** intensity of the 3 colours and numerous sizes characterize the series, which is also available in the prestigious sizes 120x120 cm and 60x120 cm, the latter available with thickness of 20 mm, ideal for the outdoor.

**Oaks**, in five nuances characterized by soft tonalities, expresses all the naturality of the finest woods to dress the spaces with elegance and essentiality.

**Edimax and Astor await you at Maison&Objet Paris from January 19 to 23, Hall 5B – Stand A35/B36.**
