## Stand E147

HALL 7

From the icy vastness of the far north to the splendour of the Cyclades, by way of an exciting jaunt through the heart of Saint Ouen, or owing to a captivating circus act, our collection explores vast territories of inspiration where nature or emotion are always central.

Editor and french contemporary furniture manufacturers, we design and sketch our creations like so many snapshots, of memories, of love at first sight and of encounters .

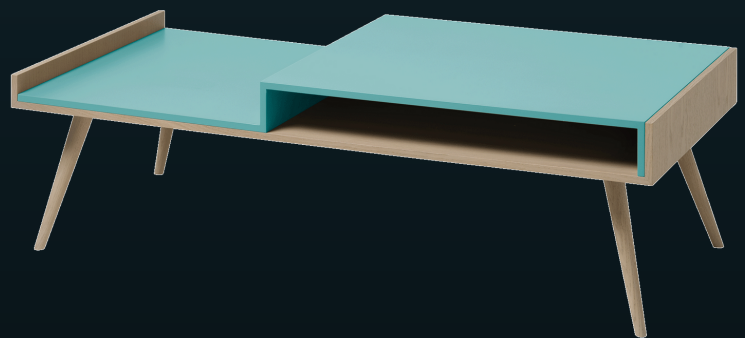

GALLERY 910

## GALLERY 910

Our Interiors are spaces to reconstruct, with a multitude of possible interpretations and where the furniture defines our daily use and adapts still more to our desires and our changing ways of life.

That's why our collection, with its clean lines and subtle assembly, cultivates the sense of a simple, aesthetic and functional design to make our interiors sanctuaries of elegance and pleasure, infinitely appealing.
