The exterior of this fanciful piece is presented in fiberglass with a luxurious shade of translucent black with high gloss varnish completed a beautiful golden rim, a small detail that stands out.

ABOUT THE MOVIE

The French Movie La Ch'tite Famille is about Valentin, a hot architect, who claims to be an orphan because he is too ashamed to admit he is the son of working-class scrap metal merchants from the north of France.

Valentin that is in a relationship with Constance (which also is an architect) are both preparing for the opening of their retrospective at the Palais de Tokyo, but nothing will happen as planned.

His mother, brother and sister-in-law arrive at the palace in the opening day and this will be the beginning of the collision of both worlds. As if that was not enough, Valentin has an accident in which he becomes amnesic and his memory remains blocked twenty-five years back. The thing he doesn't know is that he will be more beloved than ever.
