

COLLECTION PIERRE CARRON

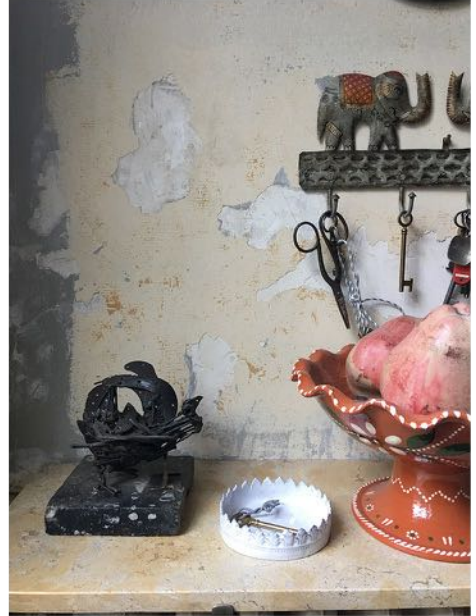

**CARRON**

*peintures & céramiques*

# A Family Story

Before learning the Art of ceramics in the sculptor Georges Jeanclos's studio, it was first with his father Pierre Carron that Mathilde Carron-Astier de Villatte exercised her eye and took her first steps as an artist.

The "CARRON style" is therefore directly from the world of the birthplace, decorated with antiques, curiosities and of course paintings and sculptures by Pierre Carron, expertly staged by his wife Micheline.

So what's more natural than to make a collection combining the ceramics of Mathilde & Pierre's drawings.

Launched discreetly last year, the collection is growing up with this time wide patterns affixed directly in the ceramic pieces
