# Butterflies/ Insects

We have an unique assortment of butterflies and insects in handmade decorative frames or in glass domes. We can also provide butterflies without frames. Our entomology department ensures that we can offer the best quality!

The mounted butterflies that we offer come from breeding farms in South America, Africa and Asia. The butterflies are bred in a protected environment and the farms create an eco- friendly butterfly habitat. When you buy our butterflies you will automatically giving support to nature in many countries. See our website for more information and for details of farms that we sponsor.

---

---

# Taxidermy

We are an award-winning taxidermy company. From our atelier we are able to handle your taxidermy needs to high professional standards.

We work with 3 qualified and price winning taxidermists. All our animals had a good life in zoos or breeding centers. We give these animals a second life, to show their beauty.
