

EBB & FLOW

Meet a clear-cut beauty

Making our design stand out, our focus has always been beauty as well as functionality. This continues in 2018 with our newest collection Smykke.

Behind the collection has also been a desire to combine crystal and glass into one lighting experience. Our mouth-blown, hand-crafted glass can therefore be coupled with precious lead crystal.

The Smykke collection is available in an all-crystal version with gold or silver fitting and wire, as well as obsidian, golden smoke and smokey grey coloured glass.

EBB & FLOW

Indulge your home with the beauty of our new Smykke collection.

Smykke means jewellery in Danish and just as you would decorate yourself with a piece of jewellery, these delicate lamps are meant to decorate spaces, while adding an uplifting touch to your experience.

Discover the options with a crystal based Smykke pendant - it's a clear cut beauty!

The collection provides various opportunities that you can implement in your decoration style. Take a glass ball in obsidian combined with silver fittings and you can add a dramatic edge to your otherwise traditional crystal pendant.

Extend the nature of your decoration with a luxurious experience.

Smykke is inspired by a fascination with precious sparkly earrings. The pendant lamp is set by two individual pieces of mouth-blown glass to resemble this earring-like feature.

Ebb & Flow is a Danish company with an online webshop, as well as agents and distributors all over the world, reselling to architects, interior designer, retail stores, and private customers. Our agents are active in 17 european countries and we currently have customers in more than 40 countries worldwide. All our designs are by Ebb & Flow owner Susanne Nielsen, made with materials from Italy and Poland, and assembled in Denmark.
