

Made for all those who appreciate unique and contemporary design, **My Friend Paco** wants to join you and cheer up your home with creative and heartfelt home decor accessories and silk scarves in which graphic design is key.

Each piece is carefully designed in Portugal and produced in small scale where each one has its own story to tell.

The brand manifests the open minded youth culture, reflecting the influences of its founder, Portuguese designer Maria Figueiredo, such as graphic design, art or fashion. All of this results in pieces with a strong authentic personality and with a sense of humor, made to celebrate the little pleasures of life.

Bonus: My Friend Paco is highly reliable. You can confide all your secrets: he will never reveal them to anyone!
