

SUN SNOW

IZIPIZI[®]
PARIS

THE LAUNCH OF IZIPIZI'S SKI MASK

After the Sun Glacier range, IZIPIZI appeals once again to mountain enthusiasts with the arrival of its first masks in the "Sun Snow" range. The masks are available in **two sizes** and several colors.

Clean and sophisticated, these specialized models are both functional and fashionable.

These new masks allow for visibility whether it is foggy, snowing, or even really sunny, thanks to their grey category 2 screen. They are easily worn over corrective glasses and also benefit from an anti-fog screen which ensures quality vision at all temperatures.

The masks in the new Sun Snow Small and Large range are suited to fit everybody and can be worn from the age of 10.

They are available in 6 colors: Black, White, Navy, Orange, Kaki and Pink, at the price of €80
