

Now that the heat wave in the Netherlands is over, we are slowly getting ready for the winter season. Which means a brand new SNURK bedding collection is available right now. In this press release we would like to show you the designs we added in our webshop [www.snurkbedding.com](http://www.snurkbedding.com) this season. Check out our website for our whole collection.

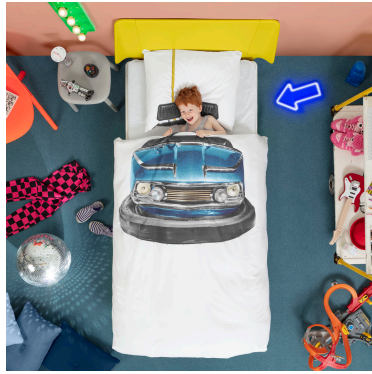

### **Climbing Wall**

After you are done climbing vertical walls all day, you can boulder this horizontal one.

### **Pelican**

For this graphic print we collaborated with the Danish label The Dybdahl co. again.

### Bumper Car

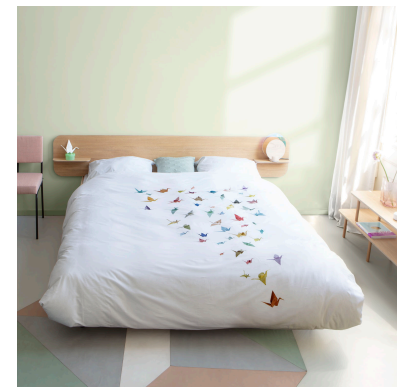

The carnival doesn't come to town every day, but now you can enjoy some of the excitement every night.

All SNURK prints are 'homemade' and we take and make our photos and prints ourselves. This bumper car was photographed by our designers Peggy and Theo in Belgium.

### Arctic Friends

You don't have to travel to Antarctica to get close to baby seals and penguins. And great news: this duvet cover is also available in soft, warm flannel cotton for the cold winter months.

### Crane Birds & Paper Zoo

We cherish a love for handcraft themes in our bedding. Therefore we hand folded the paper animals and crane birds for these prints.

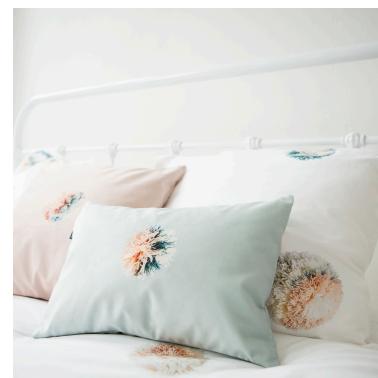

### **Princess Blue**

Winter is coming and soon the world will be frozen again. And so we added an ice blue gown to the royal wardrobe. Also still available in Pink and Yellow.

### **Twirre Charcoal Black**

The SNURK classic Twirre is now also available in black. And in soft, warm flannel cotton. Also still available in the colors Cool Grey, Dusty Pink and Arctic Blue.

### **Pom Pom**

Finally, our beloved Pom Pom duvet cover is now also available in soft, warm flannel cotton.

All SNURK duvet covers are available in international single and double sizes. All SNURK products are made in Portugal under good working conditions and we consider ourselves a people and planet friendly brand. All our bedding is made of 100% cotton and Oekotex certified. SNURK guarantees a quality, sustainable and honest product that has been designed and manufactured with love & pleasure for you. That's a pleasant sleep.

Do you have any further questions about the collection after reading this email? Please feel free to send an email to Désiree at [pers@snurk.nl](mailto:pers@snurk.nl).
