

SHAQUDA Debuts at Maison & Objet Paris- September 2018, the World's Largest Design and Lifestyle Exhibition

SHAQUDA will be making its inaugural appearance at Maison & Objet, the world largest life style and design exhibition, September 2018 in Paris.

Creating not only beauty seeking tools, but also inspiring the senses while adding comfort and enrichment of mind for people.

With this mission in mind, new era brush brand SHAQUDA was born in 2015 in the generations of traditional Kumano brush-making techniques.

We offer two series of SHAQUDA brushes, brushing skincare SUVÉ and ethical makeup brushes UBU. They are currently available

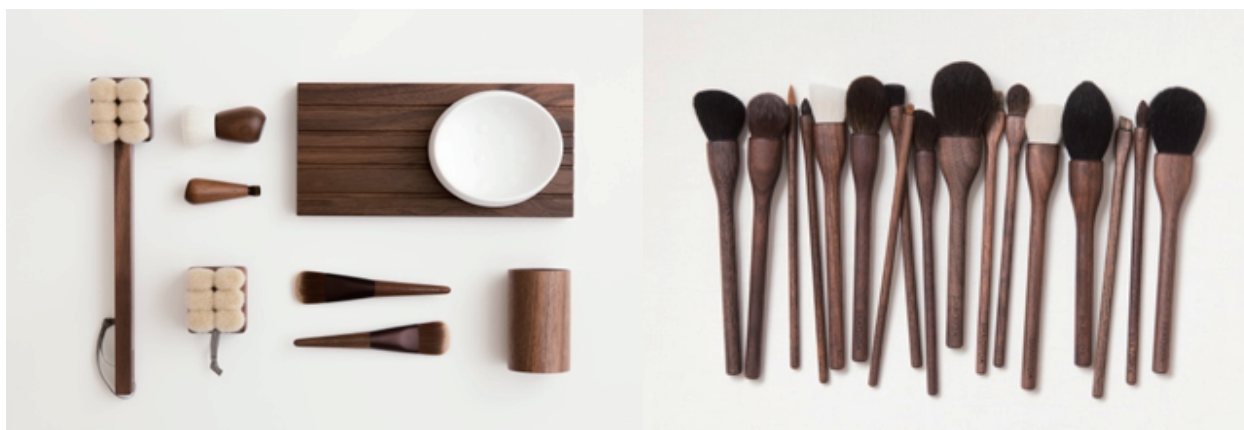

at select boutiques and major department stores in Japan, Europe, and North America.

The Maison & Objet will showcase 40 SHAQUDA products, including our newest releases. Our booth will include demonstrations

where visitors can experience the feel of our brush tips as well as carefully crafted brand communications.

We are excited to get our message out on the global beauty and lifestyle stage from Paris, a city known around the world as the birthplace of beauty and skincare.

We'll see you in Paris!
