## A Must-See in Paris, Maison et Objet:

*To preview the Colunex Beds Collection launching  
as a worldwide exclusive at Harrods*

**Paris, from 7 to 11 September** – To celebrate 3 years of a successful partnership with Harrods in London, the Colunex Design Studio launches the Autumn/Winter 2018/19 collection in Paris, to be showcased exclusively at Harrods after the Maison & Objet trade fair. Colunex mattresses provide a refreshing night's sleep, with each model offering a different level of comfort.

Inspired by relaxing landscapes, memories of unforgettable trips, and timeless details, the bespoke beds collection will bring a high-fashion feel to any bedroom. Four different designs allow a unique blend of the customer's style and the contemporary.

From luxury textures to smooth fabrics, Colunex showcases a creative mix of materials that will indulge the most demanding client.

Having exhibited for more than 10 years at both the January and September Maison & Objet trade fairs, Colunex pushes the boundaries in bed and mattress design.
