

Atelier Michel Taillis

THE ANIMATE FACTORY

Atelier Michel Taillis: the artisans of animation

Michel Taillis Création, now known as Atelier Michel Taillis, is a French artisan firm that manufactures animated figures to decorate and add visual interest to store display windows, stands and any other premises requiring presentations with special appeal. The company's animated figures are perfect for shopping malls, retail stores, government centres such as city halls, hotels, restaurants, museums, amusement parks, event venues, and more.

The company, founded by Michel Taillis more than 25 years ago, is set in the heart of Normandy, between Rouen and Dieppe. Today, Atelier Michel Taillis has grown into a team of men and women who are utterly devoted to their trades – mechanic, electrician, seamstress, carpenter – and invested in designing and manufacturing high-quality, animated characters.

Atelier Michel Taillis is the animated figure leader in France and, having earned renown in many countries around the world, the company now exports to Europe, Latin America, Russia, Asia, Australasia and beyond. As the perfect partner for display professionals and event organisers, Atelier Michel Taillis offers a wide variety of creations to energise displays of all kinds, bringing the charm of movement to mobilise sales.

Products are available for both sale and rent.
