Frédéric Richard

frederic-richard.be

Cabinetmaker by training, Frédéric Richard divides his time between a design studio and a production workshop where he makes his own furniture and objects. Far from being extravagant, his projects aspire towards a deliberate simplicity, giving them a surprisingly poetic and timeless character.

The exhibited collection results from research to ally traditional and modern crafts like computer assisted design, bowing, powder coating etc. Pure lines, noble and lasting materials, search for simple and sleek details are the common elements between the different objects.

GOBO Lights

gobolights.be

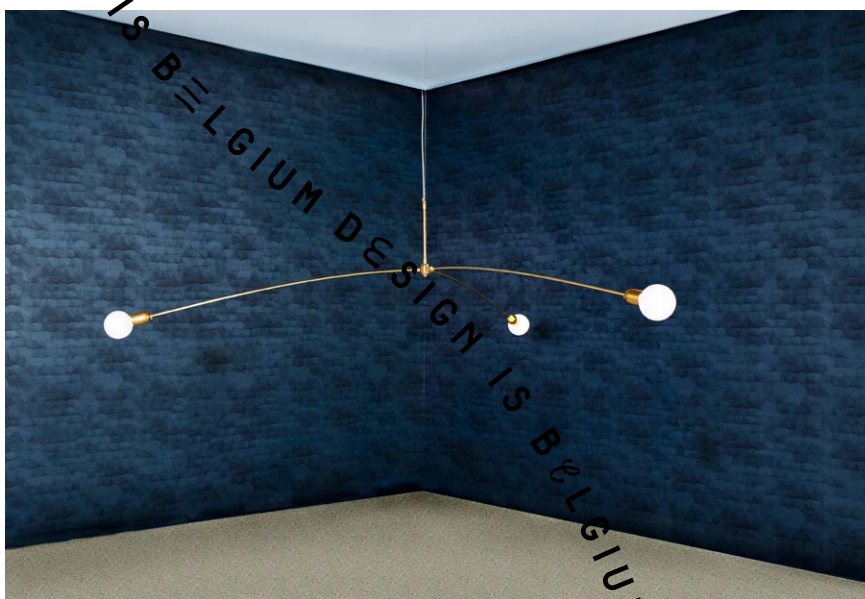

Gobo Lights is a brand of lamps launched by Nicolas Brevers which results from research on the aestheticism, the harmony and the balance. Forms in the pure, light and contemporary lines which evoke the essence of the natural elements.

For this new collection, Nicolas Brevers was inspired by the Art Nouveau mouvement, a key movement of the city he holds dear to his heart, Brussels.

Here, the curve is in the spotlight. This form, synonymous with femininity and warmth, is used with simple materials in an elegant, sleek and balanced design.

Kabinet Van Look

kabinetvanlook.com

Kabinet Van Look is the brainchild of self-taught designer / maker Jan Van Look. Initially he worked exclusively in command and the focus was mainly on carrying out small-scale interior projects. In 2010, Jan Van Look opened his first showroom in Antwerp where he presented his own furniture. The studio makes large use of wood and geometrical shapes, creating pieces that play with the perception of space and depth.

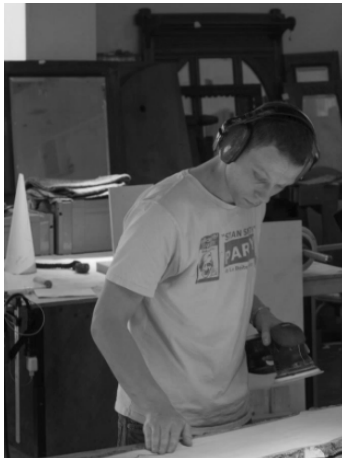

After attending Milan fair, Berlins State Of Design KVL comes back to Maison&Objet with his Nebula collection. Nebula is a piece of furniture with strong character, a massive-minimal eye-catching design that makes noise in harmony. You will hardly find two surfaces at the same height or with the same length, welcoming a heterogeneous mix of objects on the composition. Spanning to 2.5m wide and 2.8 m high, Nebula now also offers smaller models. The contrast is strong: hard geometrical shapes that naturally interact and overlap, expanding on the wall like an exploding star. For the cabinet doors, non-visible, integrated magnetic door dampers and cylindrical shaft hinges have been used, encouraging the user to explore and interact with the piece.

TENUE DE VILLE

Alexia de Ville

tenuedeville.com

Entrepreneur, Alexia de Ville first took a multidisciplinary artistic training in Brussels and London, before launching in 2014 her creative brand in the Belgian capital, under the label TENUE DE VILLE. As accomplished visual artist, she takes on all mediums to give substance to her ideas, moving freely from engraving to collage, from drawing to photography, etc., before refining her research with graphic programs. Idealized landscapes, childhood memories, abstract daydreams... Tenue de Ville launches one collection each year and dares a singularity that transforms the walls and carries the imagination away. With her 5th collection named SPICE, she sets aside the subtle textures that made the success of her 3rd collection BALSAM, and brings strong and illustrative patterns back into shape, just like she did in her first collection CITY GARDEN. Flora and fauna reappear in dreamlike compositions, where color plays a central role.

The production of Tenue de Ville is always part of a local and environmental approach. As with previous collections, all of Saudade's work is done in Belgium. The inks used are water based, and the paper is FSC certified, to ensure sustainable forest management.

BELGIUM IS DESIGN promotes Belgian design on an international stage. In existence for more than 10 years, this platform is the initiative of several design promotion institutions, such as Flanders DC, MAD Brussels and Wallonia-Brussels Design Mode (WBDM).

From 2018, Belgium is Design is targeting a new identity. The Brussels studio Kidnap Your Designer has chosen to permeate it with a bit of Belgitude by using a typeface, The Alphabet Family, which clearly has its roots in national culture as it was used for a long time on roads signs and called Alphabet in French and Alfabet in Dutch.

Playing on repetition, the letter E echos drawing, the writing gesture when a project comes into being, and it characterises the label's identity.

Belgian creativity in the design sector and promoting dynamic young businesses that will be the key figures of the future: that is the mission of Wallonie-Bruxelles Design Mode (WBDM), the public agency for the promotion of design and fashion which seeks to improve the international visibility of designers from Wallonia and Brussels. Since 2006, WBDM has given its support to these creative industries, mainly achieved through collective stands at international trade fairs, exhibitions, B2B events, and meetings with the press and other international opinion makers. Through these activities and close supervision, WBDM continues to witness the flourishing of business in this sector.
