Welcome to our World!

Lorena Canals. The designer

It all started 20 years ago as a young mother while watching my girls play on a rug one day; "Wouldn't life be easier if I could wash the rugs at home?". Searching for the ideal practical rug, I decided instead to design the perfect washable rug myself to create an ideal kid-friendly home.

I'm passionate about my work, and more generally about art and creativity. I am enthusiastic and dynamic by nature and I have always felt an attraction for entrepreneurship, which allows you to do things by yourself. I'm 200% involved in my business and my family and constantly thinking about new designs.

My inspiration comes from contemporary art, nature, colours of India... Every form and shape can come to life as a rug!

Washable Cotton Rugs

A rug that can be thrown in a washing machine? Yes, please! Creator of the washable rug concept, Lorena Canals' rugs allows for a stylish & modern, yet practical decor. Soft, flexible and easy to move from one place to another within the house, even to your garden! All handmade with natural cotton and dyes to ensure durability after washing, comfort and safety for everyday life.
