press release

## Living Room Code 70s Interior Styling

Maison et Objet Paris is closer than ever... The leading home décor fair connecting the international interior design and lifestyle community will take place from 18 to 22 of January at Paris Nord Villepinte Exhibition Centre.

DUISTT is proud to unveil its novelties at **Hall 8 Stand B7**, Forever Signature, the place where luxury brands, the excellence of true craftsmen and haute couture decoration concepts meet.

Inspired by the architectural designs and aesthetics of the 70s, DUISTT presents an elegant living room where concrete lines, played through a viroc panel, are involving a set of timeless and exquisite designs combined with orange walls that bring warmth to the space. The highlight goes to a bar with a cylindrical shape resembling the geometric forms used in the 70s by iconic architects like John Lautner and Oscar Niemeyer.

In effect, one of the stars of the tradeshow will be Oscar. Inspired by the curved lines poetry of Oscar Niemeyer's architecture, Oscar modular sofa allures for its sensual and free-flowing curves. Like Niemeyer once said "Curves make up the entire Universe" as this contemporary modular sofa will surely make up any living room adding a sophisticated and timeless appeal. When it comes to décor, this sofa offers endless possibilities.

Oscar Modular Sofa

Combining high levels of comfort and style, we will be also presenting the furnishing collection Apollo. A touch of divine and stellar inspiration depicted in a duet of designs, armchair and dining chair, that appeals because of its iron structure blended with our finest selection of fabrics.

Apollo Dining Chair

Exploring the stellar theme and finding inspiration in outer space, DUISTT releases a series of designs. A pair of rounded mirrors, named Cluster, in black lacquered iron and brushed brass details will be behind the bar in two different diameters. The space will be also adorned with the sophisticated brass details of Ray Collection, which includes two coffee tables and one side table, and the Orbit accent table, a handmade brass structure involved by two rings which provide the graceful feeling of movement and stillness at the same time.

DUISTT's best seller, the Julius Chair, inspired in mid-century modern design, is a timeless and understated luxury piece. It is constructed with noble materials like brass and fabrics that enhance its beauty such as the hidden structure on the back of the chair that makes it look suspended. At the show, this classic will be customized with an exquisite orange fabric from the luxury Maison Lelièvre Paris. The bar's countertop will also have a trio of Julius bar stools, a brand's iconic design defined by its modern and clean lines.

Also, the Lune C stool, a versatile piece that can be used as a stool or, with a wood tray on its surface, as small coffee table will be showcased.

Lune C Stool

The lighting will be in charge of Chain pendant, an interesting and unique item made up of three hanging pendants each giving a soft, warm and inviting light. The chains are designed using a mix of brushed brass and dark bronze which creates a striking yet harmonious contrast.
