CANALS

NEW COLLECTION

# LORENA CANALS

My inspiration comes from contemporary art, nature, colors of India... I see rugs and accessories everywhere!

I have always believed in being part of the solution. Whatever problem I encountered, I didn't want to just sit on the sidelines and complain about it. I wanted to act.

I was a young mother, busy taking care of two little ones but always thinking three steps ahead. I watched them playing on a rug one day and thought: "Wouldn't life be easier if I could wash the rugs at home?" So, I started searching for some washable rugs and I couldn't find anything suitable. I then did what I always do: I acted and decided to create a washable rug myself.

That was 25 years ago.

Now, with ever more versatile designs, our rugs and multiple new accessories have arrived at every corner of the house, making Lorena Canals a home décor brand that offers everything needed to create fascinating atmospheres at home.

What makes me proud is that every product is carefully and individually handmade by our artisans and this makes every rug and accessory unique and different.

## SAKŪLA PROJECT

With the same energy and intensity she puts into creating her collections, the designer Lorena Canals works personally to give children a better future through access to education.

Lorena Canals Sakūla Project began in 2008 with the construction of a nursery in Haryana, in the north of India, enabling boys and girls found in the street, lacking any manner of protection or security, to have a place to spend the day, receive a daily meal, be cared for and receive an education to help them secure a better future. Today there are 120 boys and girls attending the nursery, and work goes on to enable more children to attend year after year.

With the purchase of one of our products, a customer helps a child attend school. We believe that education is the key to mobility and vital in breaking the poverty cycle. So our customers not only help children to get an education but also the opportunity to live a better life.

*"It is wonderful for a child to have dreams, because they will later become aspirations. And education is undoubtedly what is going to ensure that such aspirations turn into possibilities. And this is where we play a very important role."* LORENA CANALS

# ENGLISH GARDENS

Lorena Canals has transformed the natural colors and textures from botanical gardens into textile accessories that will make you fall in love. The mixture of shades, such as rose, mauve and white, brings harmony and finesse to home decor.

## LOBSTER

For sea lovers who want to feel the softness of the white sand, this collection will bring the ocean breeze to any corner of the house. The intense reddish tones of the lobsters add a whimsical touch to the simple designs of natural color. Besides washable rugs, this collection includes striking wall hangings.

Each flower is handmade individually by our expert artisans

# TRIBUTE TO COTTON

With this collection, Lorena Canals wants to pay tribute to cotton, the material with which she has been working for more than 20 years to make her rugs and home decor accessories.

Natural cotton is cool in summer and warm in winter, so these rugs are the perfect accessory for any season of the year. Ideal for children's rooms but also fit beautifully in other spaces, like bathrooms, halls and living rooms.

Overlay the shape rugs on top of our rectangular designs
