

**EXCITING LAUNCH OF INDOOR AND OUTDOOR NOVELTIES**

**ANTON COLLECTION**

Anton is probably one of the most instantly likeable outdoor collections there is. The deep tub shaped seat has a luxurious look and feel which invites you to curl up, sprawl out, or lie back. The weaving pattern and solid teak base add warmth to your outdoor seating area while adding a spacious feeling as well. Nestle among the soft pillows and allow yourself to relax for a moment!

**TEO COUNTER & BAR STOOL**

The Teo counter stool and Teo bar stool are the newest members of the Teo collection. The chairs' pure lines and beautifully crafted wood remind us of Scandinavian design. Although wood might not seem like the most comfortable material to sit on for a long period of time, the carefully crafted shape of these chairs will no doubt positively surprise you. With their refined look, the Teo stools will be an upgrade for any dining space. The Teo counter stool and bar stool are available in natural oak or nearly black solid beech.

**ACHILLE**

The Achille dining table is a blend of clean straight lines with authentic irregularities. The nuts and cracks in the solid oak wood give the table a rustic look and emphasize the material's natural beauty. Every table top has its own pattern which only attributes to the uniqueness of the Achille table. Combined with its sleek black powder coated steel frame, the table is the perfect example of well-balanced design. To fit your personal style best, you can even choose your table base and table top finishing. Choose between an A-base, X-base, or square base and three varnishes to create your own Achille table.

**VIVI PLANT STANDS**

The Vivi plant stands are the perfect way to add a sense of nature to your home in the blink of an eye. Rattan plays the leading role in these designs, a material which has been in Vincent Sheppard's DNA ever since the beginning of the company. For quite some years now the company has been celebrating the material instead of using it solely as a firm basis for their Loom furniture. The combination of natural rattan and powder coated steel turn the Vivi plant stands into contemporary eyecatchers which will add warmth to your living area all year round. The plant stands are available in three sizes.

**LIGHT MY TABLE**

Dinner parties lacking je ne sais quoi would do well to involve the lighting garland Light My Table. The feelgood enhancer is fit for both indoor and outdoor use, and allows you to add a welcoming and warm touch to your dining area all year round. The little roof of light literally brings people closer together and creates a cosy atmosphere in the blink of an eye. Because of its simple design, the lighting garland easily blends into any style and reminds you of old-fashioned luminous garlands experienced in a shopping street or during garden parties. The festive string of lights is designed by Studiomie and comes in a self-assembly kit. The assembly process is simple and Light My Table can easily be clamped onto your table. A piece of leather between the clip and tabletop prevents damage when tightening.
