

***GREEN APPLE TO BE AT MAISON & OBJECT IN PARIS FROM JANUARY  
18th to 22nd***

***The Portuguese luxury furniture brand will be present at Stand C8 – D7 in Hall 7.0***

*Paris, December 11th , 2018 - **Maison & Object**, the leading trade fair for the home that involves the international interior design and lifestyle communities, will take place **from January 18th to 22nd, 2019 in Paris at the Parc des Expositions Paris Nord Villepinte.** ideal stage for the exclusive design of **Green Apple**: luxury brand that creates and produces furniture and lighting for the residential and hotel sector in Portugal and exports to markets all over the world.*

Green Apple is a success story, born from the brilliant minds of Sérgio Rebola and Rute Martins, a couple of economists with a master in business management, passionate and expert in luxury items that has focused its standards at the service of its customers and founded the company mission on meeting the needs of the most demanding.

A story made of talent, work, resilience, vision and strategy, which allowed the two partners to become enviable players in the production and export of luxury goods in markets as diverse as extensive as the American, Asian and European ones, and to build a strong and solid reputation as a result of their coherence and excellence.

At the base of everything there is, in fact, perfectionism and obsession with details. A rigorous process that, to ensure the highest quality, implies a meticulous control of all the phases, from the materials, the shapes, the design and the production process. Equally important is the symbiosis between the designer and the artisans who, in synergy, create unique pieces.

Reconciling success with art, Green Apple today transcends boundaries and with its products carries the Portuguese flag all over the world and offers an exclusive design and a distinct service.
