## MIX METALS

Use of more natural-looking metals. Anodized surfaces are having it's moment now, while copper and rose gold are out this year. Chromes arrives with 2019's standout colors that embody the warmer spectrum of the color wheel.

## RAW MATERIALS

Marble continues to be strong material in 2019. White and grey marble is a timeless material that can give a classic aesthetic to your bathroom. Our fascination with natural and raw materials like stone and porcelain and the visual texture they add to our interiors will continue. These materials bring durability and have a sustainable quality that is increasingly important for consumers.

## STATEMENT ART

2019 is the year to make an artistic statement in our homes, including the bathroom. Adapt the style of the painting depending on the style of the bathroom itself. A piece of art can give the bathroom a much needed focal point.

## OPEN-CONCEPT BATHROOMS

Opening the bathroom to the rest of the room creates more space. It's a call for an old time when atelier apartments had bathtubs in the middle of the kitchen. The trend of "open plan" bathrooms is gaining popularity with freestanding tubs in the middle of the room being picked up by boutique hotels that want to rivalize with airbnb's.

## MATTE BLACK FINISHES

The spa-inspired bathroom trend has returned. It's all about elegant and dark vanities in matte finishes that evoke a high-end experience.
