

## VICAL AT INTERGIFT, MADRID 2019

We present our main proposals in decoration and furniture for the next season in the first edition of Intergift 2019, the renowned international exhibition of Gift and decoration, which will open its doors from February 6th to 10th in Madrid.

Strong colours, striking and with personality are the chosen ones for the new collection of tapestry, in which the pink and the green are protagonists.

In our furniture collection, we highlight the pieces with materials such as glass and finishes in lacquered, steel legs in silver and gold as high exponents.

The collection of ceiling and table lamps which give personality to a home. We present a new collection of rattan and seaweed lamps with shapes of balls and fringes of seaweed in natural beige colours, as well as expanding our existing collection of white and golden ball lamps.

As for decoration, we also bring many novelties. In this edition of Intergift, we bet on ethnic decoration coming from different corners of the world with figures of indigenous, African and Asian influences, made in wood or bronze, and with pieces like necklaces with original bone motifs, snails, Feathers and an extensive collection of hand-painted paintings of striking colours.

The warm touch will put the new collection of cushions formed by spectacular pieces in velvet filled with feather and whose touch and softness of high-quality fall in love to the visitor. The cushions, with surprising prints, will be of a wide range of colours like orange, green, gold and black.

The difference between styles and nuances, warmth, elegance and exoticism remain the main axes of our brand. And especially, of our latest novelties, which can be seen in the high decoration sector of Intergift 2019.
