EXCLUSIVE BERBER RUGS

THE SONS ARE GROWING

2014

Ever since we started this adventure in 2014, every year has been the most successful. The interest in antique Berber rugs continues, but the demand for different dimensions and customized pieces has escalated. Therefore, we decided to grow. To change. Without losing the spirit of Rugs&Sons.

2019

2019 Rugs&Sons is still Berber, still quality and still handmade - but with more opportunities.

Exclusive Berber rugs

Since we specialize in antique Berber rugs, our website www.rugsandsons.com is above all an online showroom presenting the most beautiful elements of our collection. These are authentic old pieces, made during the 20th century by now sedentary tribes, with exceptional artistic characteristics and intended especially for professionals and collectors. Here you will find some of the most beautiful and rare masterpieces still available on the market.

Vintage and artisan rugs

We also offer, at very reasonable prices, rugs with a more decorative than a speculative vocation. Whether vintage or new, they are always unique pieces handmade by Berber women perpetuating the graphics and technical traditions of their ancestors. This collection is visible on our website and directly in our showroom. We can supply professionals on request and in large quantities, in different styles and price ranges (from 30€/m², taxes excluded).

Customized rugs with contemporary design

We are proud to present our very own collection of high-end, handmade Berber rugs, using only exceptional wools with natural colors. We have been producing custom-made rugs for several years for special requests, offering a wide range of technical possibilities and dimensions.
