THE PAINTER'S WIFE

ABOUT US

We are a specialist in contemporary art and a veterinarian who found Pepa, our dog, in March 2015. She had been abandoned in the parking lot of our house and we immediately decided to adopt her. Gradually we realized how hard it was to find accessories for Pepa that suited our taste and lifestyle.

In 2017 we launched The Painter's Wife, a project dedicated to lifestyle for pets and their owners. With an eclectic, contemporary and fresh approach, aligned with our back-ground, TPW brings to dog's lifestyle the needs and life philosophy of today's dog owners.

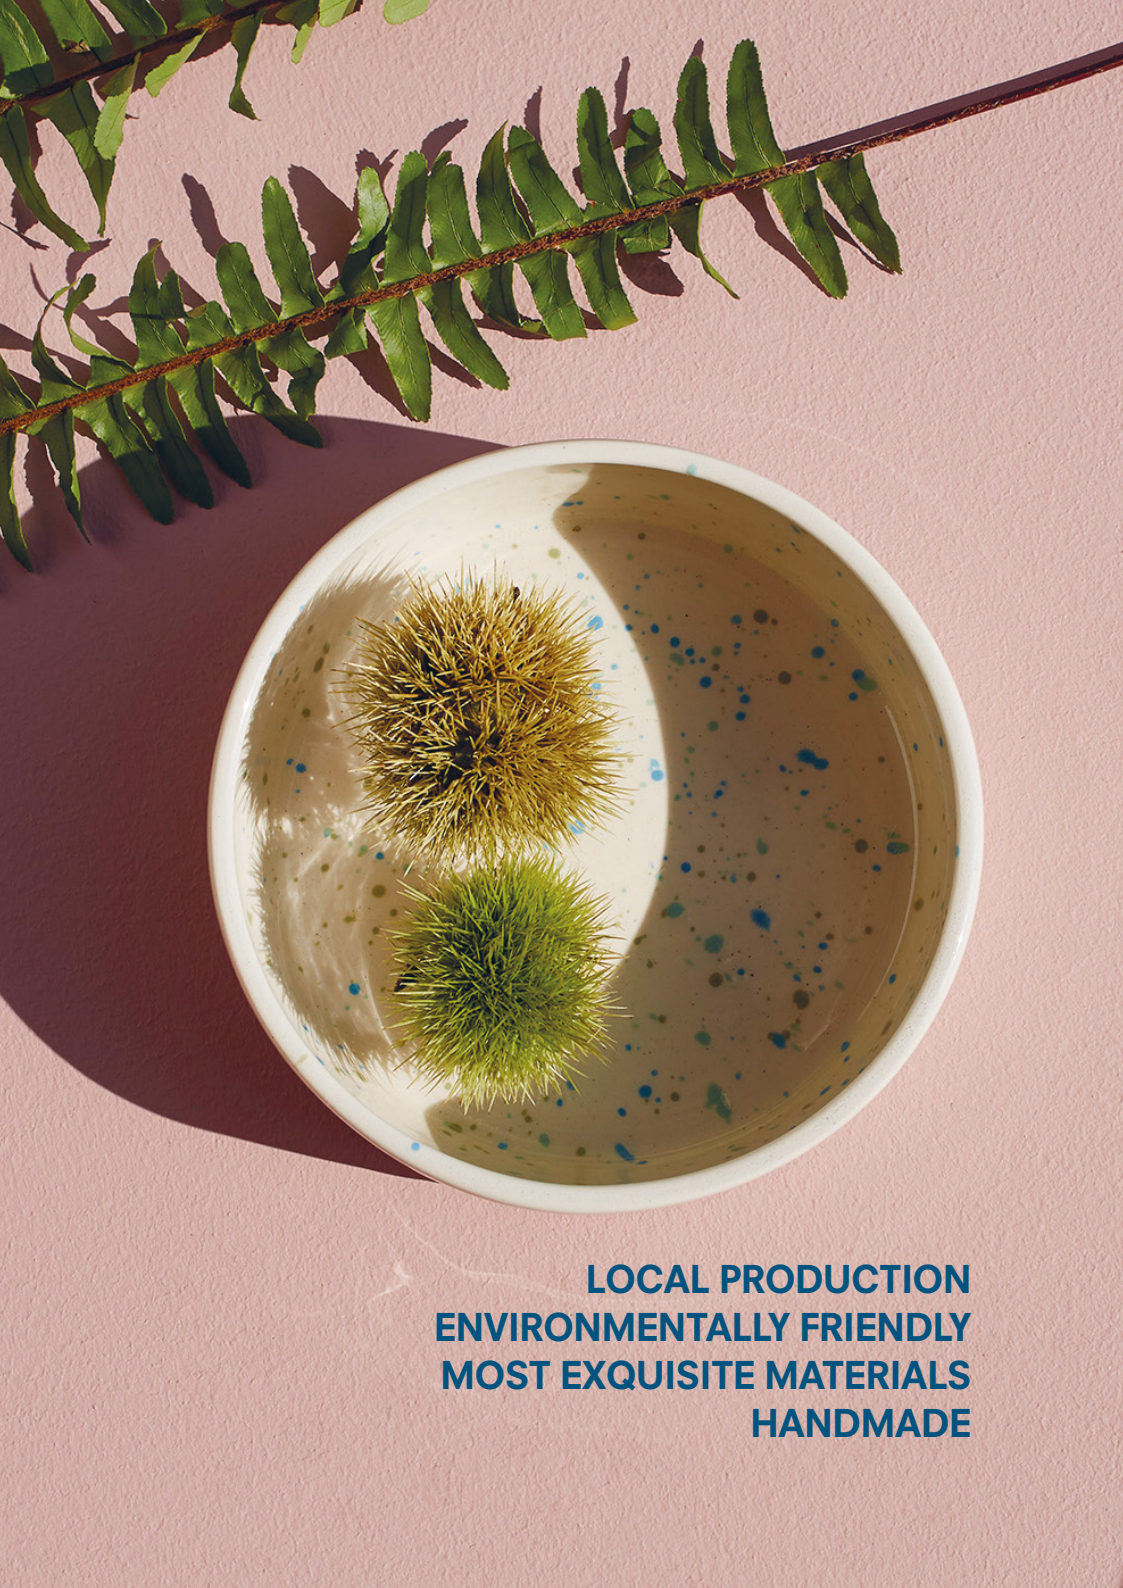

THE PAINTER'S WIFE

OUR PHILOSOPHY

Man's best friend has a privileged position in our lives and homes. As dog people we love to be accompanied by our pet wherever we go because we enjoy its company. It doesn't matter if we live in the city or the countryside, we share habits and lifestyles.

More than just clothing, home wear, travelling and outerwear goods nowadays are must haves both for dogs and owners'.
