

New Side by Side tables by Wewood

PORTO, January 2019 – Wewood’s collection has a new couple of side tables designed by Rita Botelho.

Side by Side tables are made from solid wood and metal and are ideal for living and working spaces.

The main focus is the tray with a particular rounded edge and the details of the junctions that invites you to touch and use it.

The beauty of the wood is emphasized by the table's construction that also allows it to be customized with different table tops in walnut or oak.

It is available in two different sizes that work perfectly individually or together.

The designer, Rita Botelho, worked with a range of international product and jewellery companies, including Benetton's creative centre FABRICA in Italy, Ricordi & Sfera in Japan, Omnia in Portugal and with Jonathan Radetz in Germany.
