## PRESS RELEASE

Founded in 2005, De Kulture is a platform to bring people together. We celebrate authentic and exquisite craftsmanship that is both people and planet friendly. In cooperation with our Indian artisans, we design, produce and market handmade lifestyle products.

We are very pleased to launch the autumn collection of our lifestyle tableware and kitchenware that are eco-friendly, highly durable and corrosion resistant. Our new range features Hand Hammered Copper Drinkware, Brass Tableware, and Bronze Kitchenware Vessels.

Our 'state-of-the-art' copper collection will have handcrafted Copper Bottle, Pitcher, Carafe, Coaster, Tumbler, Platter, Tray, Cup, Mug and Tea Light. Our handcrafted Brass products would include Canister, Platter, Tray, Bowl, Cutlery and Floater. Our hand sculpted Bronze vessels will include a range of Platter, Bowl and Tumbler. Our Tinware collection will feature Sake Cup & Server and Tumbler.

We hope you will love our things of art, as much as we love making them!

Please visit our booth. Hope to see you soon!
