

WHAT IS THE SOUL OF A HOME?

This is not something we can provide a certain answer to, but a stylish and assured linen colour scheme makes it easier to express your personality. Think about forests, oceans, beaches, the sky, mountains and meadows. Think charcoal, petrol, flowers and chalk. Skin and clay. Those are where you can find our colours and shades.

Himla begins the season with a minimalist expression where subtle shades in textiles and textures take places. Soft Shades contains warm neutrals and dusty colours that create timeless rooms and atmosphere with a finesse. The autumn continues in dramatic red fashion colours that give you the opportunity to an outstanding styling – Magnificent Reds. In Greenery Spirit, thrilling colours of green, blue and a splash of red are mixed in a personal and creative way.

Welcome to visit us in our stand at Maison&Objet, Hall 5A Stand number: C158.

HIMLA is not one style – it's all styles

Himla represents the best of Scandinavian simplicity and offers great opportunities for layering and creating a unique style which is very hard to copy. We create beautiful textiles for every room. Most of our products are made of linen, but we also work with other natural materials.
