

WASHBAG | Toiletry bag

When you're always on the go

The wash bag – reinterpreted

The name is the only old-fashioned thing about it: sponge bag, unguent case, toiletry bag – it reminds one a little of youth hostels and camping holidays. However, clever bags like the WASHBAG from TROIKA fit perfectly into our mobile times.

The compact black wheel turns out to be well thought out on closer inspection. A semicircular zip opens the spacious main compartment: plenty of room for razors, deodorant, shampoo, etc. The mesh compartment above safely holds smaller wash and cosmetics accessories. Of particular use is the sturdy hook, with which the WASHBAG can be hung anywhere in the bathroom. Despite its round shape, TROIKA'S new toiletry bag can also be easily and safely used on the cabinet or on the edge of the bathtub – thanks to its stepped standing base.

The clever travel companion is made of tarpaulin, a particularly resistant, water-repellent material that is also used for fly sheets. With a size of 155 x 300 x 155 mm, the WASHBAG offers plenty of space for everything one needs in the bathroom when travelling.
