

Experience the magic of light in new ways

Beautiful solutions, breathtaking colours and new possibilities. This summer, EBB & FLOW launches no less than four new wall lamp designs - one even doubles up as a ceiling light. Along with this launch, five new glass colours are also introduced as an addition to the popular Rowan and Horizon collections.

Light is meant to shine, renew and bring joy. The new lights from EBB & FLOW offer you a chance to achieve flexibility, renewal and joy either in your home, restaurant or hotel.

“Esthetics as well as function is the essence of our new designs and colours – our lights serve a purpose, but they must also add beauty to their surroundings” says designer Susanne Nielsen.

Spoil your home with Rowan

A breath of fresh air has been added to the Rowan collection by adding to the popular pendant design an explosion of colours in nuances that are earthy, opulent and cool: *toast, angry sea, ruby, pool blue and chameleon*. The mouth-blown, transparent glass expresses the mood of the colours with beautiful subtlety. You can really spoil your home with these new

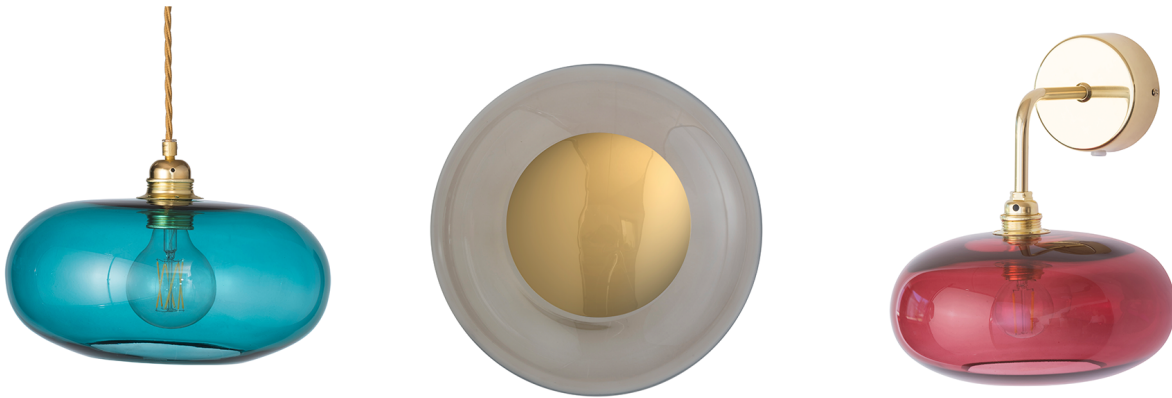

colours that will easily match your modern kitchen or living room décor. The classic Rowan wall lamp has been re-designed and is now available with a new contemporary wall fitting.

Smykke – a beautiful transformation

The 2019 German Design Award winner, Smykke, has been transformed from a pendant into a wall lamp. The result is beautiful, romantic and exclusive. The new design also offers the option to mix and match colours and crystal in the two-pieced lamp. The luxurious design is ideal for hotel, restaurant and home lighting.

The Smykke wall lamp is available in pure crystal or glass editions, as well as in combinations of the two materials.

Discover new Horizons

Rays of light shine through the transparent glass to light up any wall or ceiling. The new Horizon is clearly a statement lamp with character. The shape is edgy, infinite and wide – it's a design that is obviously meant to catch attention with its unique look. It's suitable for lighting solutions in home environments and hotels and restaurants alike.

Horizon is also available in the new, timeless colours: *toast*, *angry sea*, *ruby*, *pool blue* and *chameleon*. The design is launched both as a specific wall light, as well as a version suitable for both walls and ceilings.

Ebb & Flow is a Danish company with an online webshop, as well as agents and distributors all over the world, reselling to architects, interior designer, retail stores and private customers. Our agents are active in 17 European countries and we currently have customers in more than 40 countries worldwide. All our designs are by Ebb & Flow owner Susanne Nielsen, made with materials from Italy and Poland, and assembled in Denmark.
