DISCOVER THE ARTY AND COLORFUL UNIVERSE OF THE FRENCH BRAND SHANDOR AT MAISON & OBJET

THE YOUNG CREATIVE BRAND OFFERS UNIQUE INTERIOR DECORATION INSPIRED BY 20th CENTURY ART AND DESIGN.

Arty designs and eco-friendly materials.

By combining inspiring designs, rich palette tones, textures carefully selected for their quality and eco-friendly materials, the young French brand Shandor stands out with an arty and graphic style with contemporary patterns mixed to vintage notes. Inspired by the great masters of 20th century art such as Matisse, Picasso, Cocteau and many other references, the creations are displayed on wall hangings, posters, cushions, beauty cases, children's products and fashion accessories such as silk squares or T-shirts. The themes offer a variety of styles ranging from simple colours and abstract patterns to hand-drawn graphic prints designed by founder Camille Fosse, sometimes illustrating faces, sometimes animals, fruits or even women bodies.

In a context where the way to produce and consume is more than ever becoming a global issue, **Shandor is making it a point of honour to have its collections prepared with the utmost care in France, in an ethical and responsible way**, by using eco-friendly or recycling materials for most of its products, by upcycle its fabrics wastes and by choosing local and rational production.
