

Beautiful home & lifestyle handmade products

Press Release

26-07-2019 – For free and immediate distribution

Be Home is a home & lifestyle brand exclusively available for professionals (shops, concept stores, restaurants, hotels ...). We have a vast collection of more than 500 products. All products are handmade and the different materials used are durable and natural. This makes each product unique and exclusive.

Be Home pays particular attention to have an ethical approach in its development. The products designed by Be Home are shaped by craftspeople established in different countries (Vietnam, Thailand, India, Indonesia, Bolivia and Tunisia) working in fair and respectful conditions. Be Home is proud to provide space for these artisans and present their achievements to new audiences.

The quality materials used are mango wood, marble, recycled wood, glass, seashell, rosewood, etc. The Be Home style is contemporary, original and natural.

Listening to its partners, Be Home also adapts to its customers by offering customization possibilities for its products to the exact specifications requested.

Born in California in 2005 at the initiative of two Belgians, Be Home is now expanding in Europe with the opening in January 2019 of a branch in Belgium. Two brothers head Be Home: Jonathan Hankar (39), co-founder and head of North American operations, and Gregory Hankar (36) head of European activities.
