OUTLETS

IT'S A BEAUTIFUL FAMILY STORY LIKE ONLY OUR REGIONS KNOW HOW TO WRITE THEM...

The history of Lance Design is rooted in the Arve Valley, between Chamonix and Geneva, a valley evocative of hearty snacks based on cheeses, charcuteries, and wines.

But also a unique know-how, that of screw-machining, or the art of turning the metal to tear out the material and shape it.

Since 1956, our family, through our grandfather, Paul, then his sons Claude and Jean-Paul, and today his grandsons David, Richard and Yann, worked the metal and innovated to improve the production systems in the world of screw machining.

BEYOND A RESEARCH FOR A BUSINESS GIFT,

a few years ago, we develop our ideal pocket corkscrew... An innovative, compact and customizable corkscrew, a real little jewel of aesthetics and technicality, unlike gadgets.

BORN FROM THE MASTERY OF THE ALUMINUM AND BAR TURNING,

the Lance pocket corkscrew is a concentrate of design, toughness and ingenuity, 100% made in France. It quickly seduced our family's customers then their own customers, making it's way to French retails, and abroad.

THE LANCE POCKET CORKSCREW IS BORN

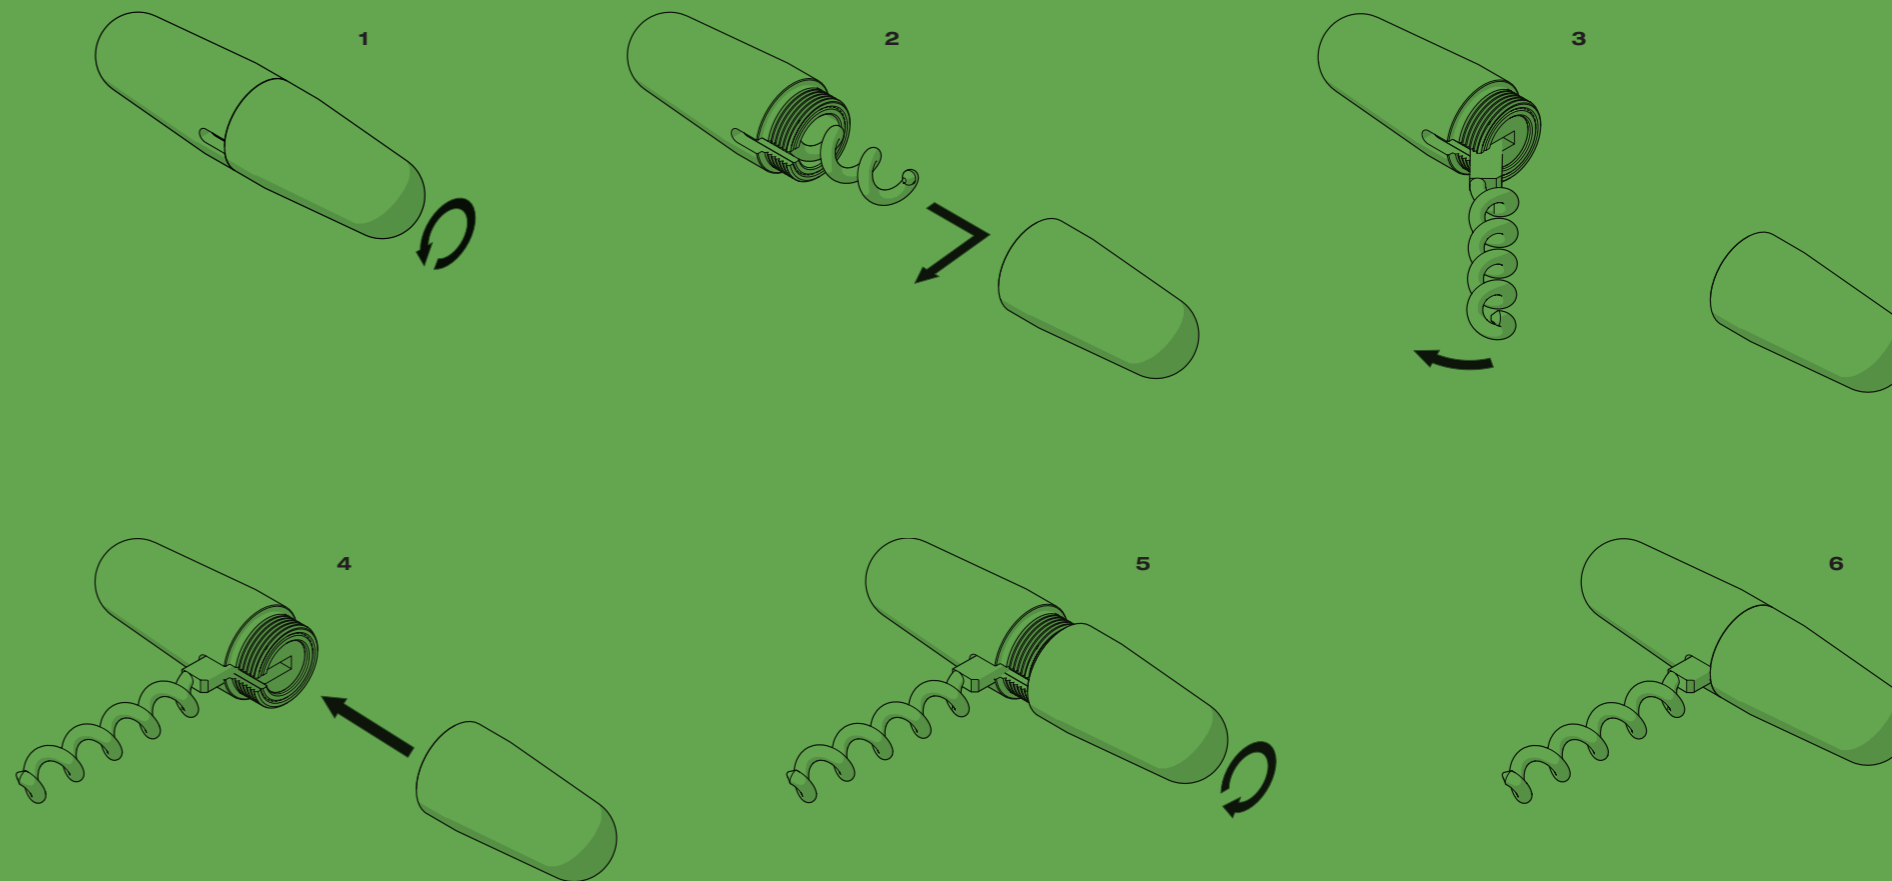

THE SMARTLY DESIGNED CORKSCREW

- LIGHTWEIGHT AND COMPACT
- CLEVER :
EASILY RETRACTABLE SCREW
