

Autumn Winter

COLLECTION 2019

Join us in our alluring autumn and winter universe. It is both cosy, relaxing, warm, breathtakingly beautiful and above all; inspiring.

This year's large Autumn Winter collection is filled to the brim with warm quilts, soft cushions, burnt autumn colours, deep winter tones and lots of lit candles filling us with that special and well-known desire to crank up the autumn cosiness.

In the lovely autumn and winter months we enjoy each other's company in the kitchen, where the pots are simmering, we kick back with a book in our cosy corner, we pull the plug and relax in the living room, and we stay in bed and sleep in. When the days get shorter and the winter darkness sets in, we fully appreciate the light and warmth from the lanterns and candles, which always make this time of year extra special, cosy and comforting.

In this year's AW19 collection you will experience an enhanced focus on the stunning and irresistible UNIKA items, because we are fully aware of the importance of recycling all that we possibly can. In this way it can be done beautifully in a both meaningful and unique way, which we all love.
