

New bracelets line GAYA !

Bangle up is unveiling its new collection of fine enamel bracelets soaked in a gold bath

When we created bangle up, our first bracelet was the Bollystud, the flagship model of the House. What was its particularity? - Gilded triangles that sublimated each of our enamel colors...

Five years later Bollystud embraces and makes room for Gaya. Emblematic triangles were redesigned in slight graphic gilded curves that we associated with vibrant colors such as Tangerine and Red velvet.

Its curves carry you in a universe of futuristic aesthetic features that will aspire a touch of modernity to your look.

Gaya line is declined in 5 colors : white sand, night blue, ice blue, red velvet and tangerine.

Small enamel marvels at an affordable price of 80€.

The Gaya capsule collection will be sold on the bangle up website, in department stores and in our partner stores from the 4 September 2019.
